

## WHPS Interactive WhiteBoards – October 3, 2011

System	Comments/Applications	Cost	Additional hardware/software required
<p><b>Interactive Whiteboards (IWB): <i>All Interactive Whiteboards require installation by WHPS Plant Services (except portables)</i></b>  <b>It is strongly recommended</b> that one of the “<b>Integrated</b>” units be considered since the projector is included AND the installation is greatly simplified, thus reducing installation time &amp; materials, and providing greater features &amp; flexibility. (...UNLESS the intended room already has a projector that is ceiling mounted)  “Smart” IWB brand is the district standard.  <b>ALL Interactive Whiteboard purchases MUST factor in the accessory costs, which result in the “Total Cost” indicated for each model below.</b></p>			
<p><b><i>The 885ix – Dual Touch 87” diagonal (16:10 widescreen Aspect Ratio)</i></b></p> 	<p><b>This integrated system</b> features a powerful <b>SMART</b> Board interactive whiteboard <b>and an ultra-short-throw projector</b>, the SMART UX60, which virtually eliminates shadows and glare. The 885ix also includes a modular pen tray that enables students to seamlessly work together.  <b>Note:</b> All widescreen systems have 20% more working space than a standard 77” interactive whiteboard.</p>	<p>87” 885ix \$4899</p>	<p><b>Note:</b> A computer &amp; speakers are needed to complete system  <b>Computer \$723.75 + Speaker System \$49 = \$772.75</b>  <b>Note:</b> No additional cost for separate projector and ceiling mounting hardware required, as this is a self-contained unit.   <b>Model 885ix Total Cost = \$5671.75</b></p>
<p><b><i>The 800i – Dual Touch - available in both 77” diagonal (4:3 Aspect Ratio)- &amp; 87” widescreen</i></b></p> 	<p>The 800i is an <b>integrated system</b> featuring a powerful interactive whiteboard and a multiuser Pen Tray that enables users to work together instantly. <b>The system also includes the SMART UF65 projector</b>, which reduces distracting shadows and glare, and an extended control panel, which allows you to easily manage the system and your classroom technology.</p>	<p>77” 880i \$3899  87” 885i \$4399</p>	<p><b>Note:</b> A computer &amp; speakers are needed to complete system  <b>Computer \$723.75 + Speaker System \$49 = \$772.75</b>  <b>Note:</b> No additional cost for separate projector and ceiling mounting hardware required, as this is a self-contained unit.   <b>Model 880i Total Cost = \$4671.75</b>  <b>Model 885i Total Cost = \$5171.75</b></p>
<p><b><i>The 600i - SINGLE TOUCH - available in both 77” diagonal (4:3 Aspect Ratio)- &amp; 87” widescreen</i></b></p> 	<p>The 600i interactive whiteboard <b>integrated system combines</b> an interactive whiteboard, a <b>SMART UF65 projector</b> and an extended control panel.</p>	<p>77” 680i \$3299  87” 685i \$3799</p>	<p><b>Note:</b> A computer &amp; speakers are needed to complete system  <b>Computer \$723.75 + Speaker System \$49 = \$772.75</b>  <b>Note:</b> No additional cost for separate projector and ceiling mounting hardware required, as this is a self-contained unit.   <b>Model 680i Total Cost = \$4071.75</b>  <b>Model 685i Total Cost = \$4571.75</b></p>

## WHPS Interactive WhiteBoards – October 3, 2011

<b>Slate: a Wireless Remote Control / “Virtual” Interactive WhiteBoard</b>			
<p>Smart Slate WS200-1</p> 	<p>The SMART Slate™ wireless slate brings new possibilities to the classroom, giving you and your students the freedom to interact with digital content from anywhere in the room. As you use the pen to write on the surface of the wireless slate, your handwriting displays on both your computer screen and the SMART Board interactive whiteboard or a projection screen for all to see.</p>	<p>\$349</p>	<p>Can be used with any computer and projector (without a SmartBoard); or as a supplement to an existing SmartBoard.</p> <p>If a projector is needed, see above for projector costs, though ceiling mounting is not essential for this device.</p> <p>As a stand-alone, a Slate may be sufficient if all of the features of an actual Interactive WhiteBoard (i.e. “SmartBoard”) are not needed. For more detailed info &amp; video, see:  <a href="http://smarttech.com/us/Solutions/Education+Solutions/Products+for+education/Complementary+hardware+products/SMART+Slate">http://smarttech.com/us/Solutions/Education+Solutions/Products+for+education/Complementary+hardware+products/SMART+Slate</a></p>
<p>Numonics Intellislate</p> 	<p>The Intellislate communicates with the computer through wireless interface that plugs into any USB port on the computer. It allows you to easily control &amp; navigate your computer while roaming the classroom; or input &amp; control may be given to students. Softkeys located across the top of the tablet allow instant access to various Presentation Tools, such as Annotation Pens, Spotlight and Reveal. The software includes Virtual WhiteBoard (VWB) to build lesson plans and capture data and a clip art library with over 6,800 images.</p>	<p>\$330.16</p>	<p>Can be used with any existing computer and projector. If a projector is needed, see above for projector costs, though ceiling mounting is not essential for this device.</p> <p>As a stand-alone a Slate may be sufficient if all of the features of an actual Interactive WhiteBoard (i.e. “SmartBoard”) are not needed.
